Territorial Jottings.

Socorro wants waterworks.
Two foot races will be run in Santa Fe on Saturday.

The track on the A. & P. road is only laid two miles beyond Navajo Springs. Track laying has been suspended several days.

L. Anderson and W. H. Eckles have unearthed what promises to be a valuable coal mine seven miles west of Silver City.

The Lomond Mining Co. have transferred to the Black Range Mining and Milling Co. the Black Knife mines, in the Black Range district.

The miners in the Cooney camp, in the Mogollon Mountains, are indignant because the contract for the mail line was not extended to that camp, but was only continued to the Plaza del Fresno, thirty-five miles away.

The report from Water Canyon in the Magdalena mountains is most promising and favorable. There is found at the head of that canyon a fine tract of pine timber and abundance of water.

It is reported that a big copper lead has been struck in the vicinity of Jemez Springs. The ore gives sixty-eight per cent. copper. The discoverer is on his way to Denver to secure money with which to develop his claim.

It is said that a splendid vein of bituminous coal has been discovered in the vicinity of Cochiti pueblo. The vein is a couple of feet thick, and the coal is of the very best quality. It is thought probable that the railroad will buy the property.

The Socorro Miner is authority for the statement that the grading of the New Mexico Central Railroad will commence shortly. This road when completed will bring the Mogollons and Black Range in direct connection with Socorro.

The reservoir in the Sandia mountains, built to furnish the water for the San Pedro and Canon del Agua works, is completed and the water is now turned on. It was let go Friday, and was then expected to reach camp in forty-eight hours. It will be a grand good thing for the New Placers.

Ten miles east of San Lorenzo, in the main range of the Mimbres, in Grant county, some of the miners have discovered a beautiful and extensive cave. It has plenty of ice, cold water, and the main rooms cannot be reached without wading. It is said the stalactites are wonderful and grand.

Socorro Sun: The Tip Top, the property of J. E. Boss, J. H. Neal and Louis Proto, is the highest mine in the Socorro Mountains, and is showing some remarkably fine ore. The lead shows eighteen inches of rich ore, sixty tons of which are on the dump. The Tip Top is no doubt a valuable property, and will be fully developed, as the owners have all confidence in its value.

Silver City Mining Chronicle: The Mexican wheelers in the Naadl Queen, in Georgetown, twenty-four in number, struck in a body on the morning of the 1st. On the 4th they were still idle and refusing to work for less than \$2 per day. Supt. Robinson gave them one more day to hold out, and if they do not return their places will be filled with Mexicans from the Mimbres.

Silver City Mining Chronicle: The Glorietta City Company have closed a contract with Capt. Faux in which they agree to furnish his smelter with one hundred tons of ore during this month from their Pinos Altos mines. When we take into consideration the fact that this company has only been in operation a short time, it is certain they mean business from the grass roots down. Superintendent Bushick wants to hire all of the ore wagons he can for immediate use.

Articles of incorporation of the New Mexico Telephone Company have been filed in the office of the Secretary of the Territory. The object is to establish exchanges in different cities of the Territory. The incorporators are Miguel A. Otero, of Las Vegas; Mariano S. Otero, of Bernalillo; Albert G. Hood, of Las Vegas; and Francis J. Marshall, of Denver. The capital stock is \$300,000, divided into 30,000 shares of a par value of ten dollars each.

Writing in reference to the rumor that the miners had been ordered out of the White Mountains, for trespassing on the Indian reservation, correspondent of the White Oaks Golden Era, after denying the rumor, says: "General Buel is now in Washington with a petition to the President, asking that two townships be cut off which will include the whole Bonito country, and some miles below the river. As the Indians derive no benefit from them it will eventually be done. Many of the miners have lived unmolested in houses upon these townships for more than a year and have never seen an Indian."

Billy "the Kid" in Denver.

A gentleman of this city who has traveled extensively through the south, and who has often seen Billy "the Kid," informed a reporter for the Tribune yesterday that that dreaded desperado is now in the city and that his mission here is the murder of two men supposed to be here who assisted in his capture. The gentleman gives the most positive assurance that his representations are true, but the story seems a little improbable, inasmuch as the fact is denied by all the authorities.—Denver Tribune.

Attention Cimarron.

Cimarron, New Mexico, may as well prepare for the inevitable. The first thing she knows Raton will make a move to secure the county-seat and will be successful, too, unless Cimarron should secure a railroad. If she understands her biz she will join Trinidad and Las Vegas in urging the extension of the D. & R. G. from El Moro down through the Mora valley. Without a railroad, when the people come to vote on a location for a permanent county-seat, she will get left.—Trinidad News.

Just received, the largest stock of fresh vegetables and groceries in the city at Hopper Bros.

In addition to the present water supply at Raton, which is equal to the demand, the company propose laying a pipe line from that place to a stream eleven miles distant, when they expect to have an abundance of water.

Notice to the Public.
